

Does Your Hometown Care?

Superchunk

When you came back to this town
You brought this weather with you
A silver sun that wont go down

They grabbed you by the belt
Pulled you to the ground
Smothered you with kisses
I thought, "I know what he misses
About this crowd"

And I ask you
Does your hometown care?

Throw us in the back
Leave the driver to his wheel
One more sick display
I think I can swallow that pill

Every second guess
Every street-cred test
You think you must be passing
With your ability at best
Yeah

And I ask you
Does your hometown care?
