

Slack Motherfucker

Superchunk

You haven't moved from that spot all night except to ask for a
light

You damn smokestack

You're wasting my time

I'd like to see you try and give it back

I'm working

But I'm not working for you

You slack motherfucker

You like sitting down

I'll kick that stool right out from under you

You're red-eyed sitting outside

Well I could do the same thing too motherfucker
