

White Noise

Superchunk

Come on, come on
That dirty water should have run this bridge by now
I've been all day leaning on the rail
Looking for a ripple, looking for you on the bow

When your making hand signals
Well, you're frantic to show me and I decipher okay
But you never did know me
You just knew what to say

And it's white noise and wishes that held us together, I know
Only a fool even mentions forever, so I
I wish warm weather on your upturned face
We're swimming like fishes in all kinds of weather, I know
Only a fool even whispers forever, so I
I wish warm weather on your upturned face

Come on, come on, are you still overheated?
You lashed out, I think you just needed to show
You could cut me there
And to think that you thought I would lose enough blood to care

Grab this golden ring, it's a halo from me
It's how I set you free
But you're building me a box in your mind
Honey, I tell you it's a waste of pine

And it's white noise and wishes that held us together, I know
Only a fool even thinks about forever, so I
I wish warm weather on your upturned face
We were swimming like fishes in all kinds of weather, I know
Only a fool even whispers forever, so I
I wish warm weather on your upturned face

I wish warm weather on your upturned face
I wish warm weather on your upturned face
I wish warm weather on your upturned face
I wish warm weather on your
