

Late in the Day

Supergrass

Its late in the day, I'm thinking of you,
The things that you say
So long
So long for me

Its late in the day, I'm talking to you
Hear what i say
So long
So long for me

All the time I thought of you
In an ordinary way
We'd slip off down the oily way

All I really have to say
As people pass along the way
The thoughts of you and me again

I lay on my bed
Searching my mind
Writing my love
So long
So long for me

I sleep on the road
Dream of a sound
Coming my way
So long
So long for me

All the time I thought of you
In an ordinary way
We'd slip off down the oily way

And all I really have to say
As people pass along the way
The thoughts of you and me again

Ooooh

And all the time I thought of you
In an ordinary way
We'd slip off down the oily way

And all I really have to say
As people pass along the way
I close my eyes and turn away

And all the time I think of you
In an ordinary day
We'd slip off down the oily way
And all I really have to say
As people pass along the way
The thoughts of you and me again
