## Supergrass

Melanie Davis stands all alone in her room, Feeling unsteady 'cos when you're alone, you're alone, Do you need someone, I need anyone, Do you need someone, I need everyone,

Light up a fire, trying to come in from the cold, When you're retired, needing a home from a home, When you need someone, not just anyone, Do you need someone, I need everyone, yeah everyone, Do you need someone, I need anyone, Do you need someone, I need everyone
