

Turning Back Time

Superman Is Dead

If I think I could escape from what I lie
Many time I found myself in anger to the time
What is the future of human race?
What is the future of you and me?
Are we gonna always suffered after all

Lots of Worries I receive
It would take my eyes in heat
In the battle we're all lost
f**k I need to turn back...
Time
Tell me when it's turning back for me
Turning back time
Tell me when it's turning back for me...Yeah

All I need is more than speech of loveliness
What the intelligence race can do so far
Why should I still hear the war?
What's on earth will getting old.
Population grows much different to the past
