

# My Heart

## Support Lesbiens

I just spoke with my heart  
A lonely heart right from the start  
I never want it to break in two  
But what I didn't do was stop the thoughts of you  
The one on one it wants to be  
You know that I want you and you wanted me  
I didn't want to cry out love  
Now is it wrong to say I love you?

I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts  
I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts

I never felt it's falling apart  
But all around things simply are  
Just never tie me down by a chain  
Let free to feel the wind and rain  
Can see what attracted my heart  
You sitting in the corner like a work of art  
I'm living like a boy in pain  
But it's so much so it's so insane

Looking like you found the seeds to grow  
Will you get back everything you sowed?  
Or will it all come out as lies?  
With a wink and a smile  
And that look in your eyes  
Can't really tell you about the things I've done  
I didn't do it all just for fun  
All I can tell you now it's why  
You shine just like the sun

I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts  
I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts

Hoping, love ain't gone  
I'm just hoping love ain't gone  
Love ain't gone  
I'm hoping love ain't gone  
I'm just hoping love ain't gone

I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts

I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts

I never wanna see you go  
'Cause we're just starting out  
Now follow me and sing a song  
To forget about all the doubts
