

# Locomotive

Susan Tedeschi

Locomotive rollin' by, Locomotive see you rollin' by  
Well your smoke is black, Blackest I've ever seen  
And when I breathe in your air your smoke is so damn mean

Locomotive well your fuel is hot. Locomotive well your fuel Is  
hot  
I hear you comin', Hear you coming but you're not  
Oh your engine's so loud then you come to a stop

Locomotive now you try so hard,  
Locomotive know you try so hard  
You've got to keep on moving, Keep on moving right along  
Oh right along, Don't stop dead in your tracks  
I can't go on with this song, no more, no more

Locomotive rollin' by, Locomotive see you rollin' by  
Well your smoke is black, Blackest I've ever seen  
And when I breathe in your air your smoke is so damn mean  
And when I breathe in your air your smoke is so damn mean

Locomotive now you try so hard,  
Locomotive know you try so hard  
You've got to keep on moving, Keep on moving right along  
Oh right along, Don't stop dead in your tracks  
I can't go on with this song, no more, no more
