

In Heaven

Suzy Bogguss

Thanks for showing up
I was hoping that you could
You never let me down
And my memory's pretty good

And after all this time
I guess I've changed a bit
There's something I have to tell you
Guess I better get to it

I can't see you anymore
I found somebody new
I love with all my heart
And he feels that way too
I think you'd really like him
If you ever got to know him
I just had to close this door so I
Could let another open
I'm gonna give my life to him
But I'd like to have your blessing
I'm in heaven here on earth
And you're in heaven

Remember when you left me
You hoped I'd love again
Well I can see a bright tomorrow now
I couldn't see back then
It's not about who's better
Or who I love the most
I'm only flesh and blood
I can't keep talking to a ghost

I can't see you anymore
I found somebody new
I love with all my heart
And he feels that way too
I think you'd really like him
If you ever got to know him
I just had to close this door so I
Could let another open
I'm gonna give my life to him
But I'd like to have your blessing
I'm in heaven here on earth
And you're in heaven

I can't see you anymore
I found somebody new
I love with all my heart
And he feels that way too
I think you'd really like him
If you ever got to know him
I just had to close this door tonight
To let another open
I'm gonna give my life to him
But I'd like to have your blessing
I'm in heaven here on earth
And you're in heaven
