In Heaven

Suzy Bogguss

Thanks for showing up I was hoping that you could You never let me down And my memory's pretty good

And after all this time I guess I've changed a bit There's something I have to tell you Guess I better get to it

I can't see you anymore I found somebody new I love with all my heart And he feels that way too I think you'd really like him If you ever got to know him I just had to close this door so I Could let another open I'm gonna give my life to him But I'd like to have your blessing I'm in heaven here on earth And you're in heaven

Remember when you left me You hoped I'd love again Well I can see a bright tomorrow now I couldn't see back then It's not about who's better Or who I love the most I'm only flesh and blood I can't keep talking to a ghost

I can't see you anymore I found somebody new I love with all my heart And he feels that way too I think you'd really like him If you ever got to know him I just had to close this door so I Could let another open I'm gonna give my life to him But I'd like to have your blessing I'm in heaven here on earth And you're in heaven

I can't see you anymore I found somebody new I love with all my heart And he feels that way too I think you'd really like him If you ever got to know him I just had to close this door tonight To let another open I'm gonna give my life to him But I'd like to have your blessing I'm in heaven here on earth Tistenoz pisnickyakordycz
