

Vice Verses

Switchfoot

Walking along the high tide-line
Watching the pacific from the side-lines
I wonder what it means to live together
Looking for more than just guide-lines

Looking for signs in the night sky
Wishing that i wasn't such a nice guy
I wonder what it means to live forever
I wonder what it means to die

I know that there is meaning to it all
A little resurrection everytime i fall
You've got your babies, i've got my hearses
Every blessing comes with a set of curses
I've got my vices, i've got my vice verses
I've got my vice verses....

The wind could be my new obsession
The wind could be my next depression
The wind goes anywhere it wants to
Wishing that i learned my lesson

The ocean sounds like a garage band
Coming at me like a drunk man
The ocean tells me a thousand stories
None of them are lies

I know that there is meaning to it all
A little resurrection everytime i fall
You've got your babies, i've got my hearses
Every blessing comes with a set of curses
I've got my vices, i've got my vice verses
I've got my vice verses....

Let the pacific laugh
Be on my epitaph
With these rising and falling
And after all,
It's just water and i am just soul
With a body of water and bone
Water and bone....

Where is God in the city life?
Where is God in the city light?
Where is God in the earthquake?
Where is God in the genocide?

Where are you in my broken heart?
Everything seems to fall apart
Everything feels rusted over
Tell me that you're there

I know that there is meaning to it all
A little resurrection everytime i fall
You've got your babies, i've got my hearses
Every blessing comes with a set of curses
I've got my vices, i've got my vice verses

I've got my vice verses....
