

If You Play Your Cards Right

Syleena Johnson

Something on your mind I feel it everytime I'm with you
If what you like to do is something I like to, let's get it tight

If you play your cards right
Everything will be alright with me
If you play your cards right
Everything will be alright with me

You won't have to hide what you feel inside
And be afraid to talk to me
Love is guaranteed
Play them right with me and you will see

If you play your cards right
Everything will be alright with me
If you play your cards right
Everything will be alright with me
