Last night you left me drunk in love and cold No one to love no one to hold This mornging I'll be looking forward to tonight Your love hangover is hard to fight

But if there's a cure for this, I don't want it, I don't want it t

And if there's a remedy, I don't need it, I don't need it This kind if love is good to me if only for one night Eternity is too damn much for me, I don't want to fight This sweet love hangovers so sweet 'til the night is over

There is something sweet
That you keep on doing to me
And I know soon one day you'll set me free
But tonight, let's make love baby
'Till the brake of dawn
In and out all night 'till the early morning

But if there's a cure for this, I don't want it, I don't want it

And if there's a remedy, I don't need it, I don't need it This kind if love is good to me if only for one night Eternity is too damn much for me, I don't want to fight This sweet love hangovers so sweet 'til the night is over

Some say this may be a one night stand They don't know how you do it to me You leave me in a trance

But if there's a cure for this, I don't want it, I don't want it.

And if there's a remedy, I don't need it, I don't need it This kind if love is good to me if only for one night Eternity is too damn much for me, I don't want to fight This sweet love hangovers so sweet 'til the night is over
