

# Just Dancing

Sylvan Esso

We begin again  
We knew before it happened  
It's always the same  
The lights quit, the music shifts  
And then I get to see you again  
Just like every weekend

I'm just dancing  
I'm faking it before I even touch the skin  
It's a rigged game  
And I know how to win it  
Shine the light from my hand  
It's just pretend  
But it feels so good when we begin  
So let's freeze it now before it ends  
Let's never stop starting  
Never stop starting

It's just like it was then  
But without all the fighting  
No ruin in the end  
Just you and me with a beat  
We build back what we broke back then  
It's reverse collision

I'm just dancing  
I'm faking it before I even touch the skin  
It's a rigged game  
And I know how to win it  
Shine the love light from my hand  
It's just pretend  
But it feels so good when we begin  
So let's freeze it now before it ends  
Let's never stop starting

You're always different but I'm always the same  
But when we're dancing you look just like my man  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting  
You never can seem to remember my name  
But when we're dancing I am in love again  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting  
(Never stop, never stop, never stop...)

We begin again  
We knew before, we begin again  
Just dancing, we knew before, we begin again  
Just dancing, we knew before, we begin again  
Just dancing, we knew before, we begin again

I'm just dancing  
I'm faking it before I even touch the skin  
It's a rigged game  
And I know how to win it  
Shine the love light from my hand  
It's just pretend

But it feels so good when we begin  
So let's freeze it now before it ends  
Let's never stop starting

You're always different but I'm always the same  
But when we're dancing you look just like my man  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting  
You never can seem to remember my name  
But when we're dancing I am in love again  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting

You're always different but I'm always the same  
But when we're dancing you look just like my man  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting  
You never can seem to remember my name  
But when we're dancing I am in love again  
Come on baby, come on baby  
Let's never stop, never stop, never stop starting
