Anything

Maybe I should kill my inhibition Maybe I'll be perfect in a new dimension

Maybe I should pray a little harder Or work a little smarter This time baby promise I have learned my lesson ooh

Down for the ride, down for the ride You could take me anywhere Do do do down for the ride, down for the ride You could take me anywhere I hope you will, I hope you will, I hope you will

Keepin' up is hard to do Even harder feeling heavy, steady chasin' you Baby baby, why are you lookin' around, you lonely? I feel you comin' down like honey Do do you even know I'm alive? Do do you even know I, I

Maybe I should pray a little harder Or work a little smarter This time baby promise I have learned my lesson ooh

Down for the ride, down for the ride You could take me anywhere Do do do down for the ride, down for the ride You could take me anywhere I hope you will, I hope you will, I hope you will

Do do you even know I'm alive? Do do you even know I, I Do do you even know I'm alive? Do do you even know I'm alive? Do do you even know I'm alive? Do do you even know I, I Do do you even know I'm alive? Do do you even know I, I Do do you even know I'm alive? Do do you even know I, I Do do you even know I, I
