

# High

Takida

I'm trying to get away  
Sinking into the mess I've made  
I'm not what I was before  
Trying to get back to a better place

Sometimes, sunrise  
Make me feel like I don't belong  
I'm tired of feel like a waste

I wanna be high  
Floating in my head alone  
I wanna be high  
Just a little bit longer  
High  
Living in a perfect world  
I wanna be high  
Just a little bit longer

I try to sneak away  
Lose my faith and change my name  
I'm over being sane  
I'm half of what I used to be

I won't cry if I don't try  
And you my friend are my alibi

I wanna be high  
Floating in my head alone  
I wanna be high  
Just a little bit longer  
High  
Living in a perfect world  
I wanna be high  
Just a little bit longer  
Just a little bit longer

I wanna be high  
I wanna be high  
Just a little bit longer  
High  
Floating in my head alone  
I wanna be high  
Just a little longer  
High  
Floating in a great unknown  
I wanna be high  
Just a little bit longer  
Just a little bit longer  
Just a little bit longer
