

My Song

Tanya Tucker

I wasn't lookin' for no one, I was just out tryin' to have some fun

When, baby, you walked in my world that day

Then you looked right into my eyes

And a voice that could make the devil cry

You just sang my poor heart away

Friends may come and friends may go

But lovers either stay or break your heart, oh, you just fall apart

I thought I could take it or leave it but I can't hardly believe it

But nobody ever sang a song about me before

And I begged you, baby, as you walked out the door

Please don't play my song for somebody else

It's so beautiful, let me keep it for myself

Please don't change the chorus and put in another man's name

Please don't take my song away, oh baby

Please don't take my song away

Sittin' here in my lonely room with the radio on one afternoon

I heard a voice that made me shiver

Oh, no one could sing that way if they didn't mean just what they say

And my tears fell like a river

Sang, "Oh baby, I love you, I was such a fool not to stay

We may never see each other again

But I'll never take your song away, oh baby

I'll never take your song away, oh baby

I'll never take your song away"
