

# Jump Up Behind Me

James Taylor

This land is a lovely green  
It reminds me of my own home  
Such children I've seldom seen  
Even in my own home  
The sky so bright and clean  
Just like my home  
Kind people as have ever been  
Won't you take me back to my own home

Jump up behind me my love  
Jump up behind me  
Old dan can bear us both  
Jump up behind me  
We follow this road 'til we reach the sea  
Jump up behind me  
We'll catch the tide and set dan free  
Jump up behind me

I've been in this world awhile  
And I've seen a lot of country  
Many days and many miles  
All various and sundry  
I've had my way and I've had my fun  
And I've had my chance to run free  
Burning hot beneath the sun  
Freezing cold and wintry

Jump up behind me my love  
Jump up behind me  
Old dan can bear us both  
Jump up behind me  
We follow this road 'til we reach the sea  
Jump up behind me  
We'll catch the tide and set dan free  
Jump up behind me

I know now  
Only one thing matters in these days  
One thing, true love  
Love and love alone  
True love

I came out of a dream last night  
Thought I was back in my old home  
Mom and dad were both still alive  
And the babies not yet born, no  
Felt like a festival  
Felt like a christmas morning  
Felt the darkness fall away  
Even as the world was turning
