

## Cause A Scene

Teairra Mari

Teairra we ain't gotta cause a scene, baby

Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Make me make me  
Make me make me  
Cause a scene up in here, don't  
I'm demanding all of my respect  
I don't care who's bout to see me  
Cause a scene up in here

I see you out here with your homies clubbin  
Champagne popped off and you bubblin  
Sheek shoes, but you better tell em somethin  
You better tell them that you're somebodies husband  
I ain't with that foolishness  
No that ain't what I need tonight  
But if they keep their hands off you  
Then everything will be alright

All hot up in here, cause I'm on that gasoline  
You know I'll take my shoes off  
And grab my vasoline... oh...

Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Make me make me  
Make me make me  
Cause a scene up in here, don't  
I'm demanding all of my respect  
I don't care who's bout to see me  
Cause a scene up in here  
No...

Your ex girl wanna flirt?  
Well she gon get herself hurt  
Even though I got on a mini skirt  
I still will put in work  
Don't tell me calm down, cause I know somebody's doing wrong  
It's gon' be trouble when  
I find out just what's going on

All hot up in here, cause I'm on that gasoline

You know I'll take my shoes off  
And grab my vasoline... oh...

Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Cause a scene up in here  
Don't make me make me  
Make me make me  
Make me make me  
Cause a scene up in here, don't  
I'm demanding all of my respect  
I don't care who's bout to see me  
Cause a scene up in here
