Ay, Ay, Uh

You love my diamonds don't cha

Let a way a nigga shine why don't you

Baby wats your disposition

Have you ever tried this position

Your my dream girl from the posters

That I thought I would never get close to

In the black limosines with choffers

Right next to the test-o-arosters

It's funny how all the jewelry just gets your cat so purry

And it look good altogether, They say they all forever

You love my diamonds don't cha

That I bought from all this rhymin'

But I know you'll never love me

You'll only love my diamonds

You mess me up
On a hot summer night
I fall in love
With you multiple times
Got me wrapped around your finger
Boy I hope your love lingers
I do (I do), I do (do)
Your my one and only rock in the rough
I love to touch you, baby you lite me up
And ther ain't no way
I'll give you away
He's my d-d-diamond daddy
And I just got to have it

When I love baby I'm gonna love ya, just like I love my diamonds Diamonds, Diamonds And When I wake up every night (Booooooy) Will we be shining Diamonds, Diamonds I treasure you Cherish you Way you move my body (Ooooooohhhh) Cause people are together Diamonds are forever Ice blue baby (Oooooooohhhh) When I love you like my diamonds Diamonds, Diamonds

Like every girl
I'm into fabulous things
Like oyster pearls, and pretty diamond rings
But your my precious pessession
I rock you 24/7
I do (I do), I do (do)
All my acessories, yea I'll give em' up
I'd even trade them in for your love

And the ain't no way

Your my d-d-diamond daddy
And I just got to have you
