

Welcome to planet Earth  
Where people are divided  
Some who try to fight it got violence and it hurts  
Damaged turf, put men at work so people could  
manage personal demons and them it's worth  
'Cause they give roadblocks and you're told  
not to show at the vote box and go for the broslaps  
Wich in shows get the folks hot  
what do you suppose locked the shows rock  
is gotta be their old and cold pops  
Racism is passed down and Gate gives them mad frowns  
But how they live and laugh now should be  
they bis and last sound from class clowns  
People should be free to be together  
Should be free to be whatever you can see that we can better  
When we give respect is good in any language  
People are the strangers, but we don't wanna see any anguish  
When I see we free to be something, anything we see  
All we gotta do is  
B.E.L.I.E.V.E

They smell the fires burning  
They hear us in the streets  
And now the world in crumbling  
They want us on our knees  
So, that's why (That's why)  
We all (We all)  
Must stand (Stand tall)  
For what?  
For what we all believe

Yeah  
Lost so many soldiers overseas  
Over cheese  
I was on my knees, and cowaiting by rain steady praying for the world to fre  
eze  
Little kid's gone, never did wrong  
Look at him as a lens but he is strong  
We should take notes  
Why you wanna hate folks?  
And hurt each other using color as the scapegoat  
We all struggle to bubble we gotta huddle up  
Different people together like in a shuttle bus  
Trouble is double, double motto?  
Your freedom is yours  
Your free to explore  
They speak in evil, you're free to ignore  
Through these hells I freely see because I  
B.E.L.I.E.V.E

They smell the fires burning
