

# Angry Young Man

Ted Nugent

You can kick and you can scream  
Wake me up from this bad dream  
You can run and you can hide  
But here I come, baby, step aside

Don't say no, don't say maybe  
Be my lover, be my baby  
You can't justify the politician's crime  
You can't nullify the terror in his mind

Angry young man  
He's an angry young man  
Angry young man  
Can you feel his rage  
Angry young man

He's up against the wall  
How can you live  
When everyone is scared to death  
You gave all you can give  
Mad at your own history  
The future's even worse  
Where did they go wrong  
Who gave him this curse

Angry young man  
Angry young man  
Angry young man  
Can you feel his rage  
Angry young man  
He's screaming in his cage  
Angry young man  
He's an angry young man

Angry young man  
Angry young man  
Angry young man  
Angry young man  
Angry young man  
Angry young man  
Angry young man
