

Just Do It Like This

Ted Nugent

Shut up
Do it like this

Everybody's scared on the street today
Looks like the cat scratched back
Very little time, even less to say
Time to get yourself on track

I got no more sympathy
Crying all night don't mean that much to me
If you just don't care, you best beware
Fire keeps burning everywhere on me
And it's burning hot

Just do it like this
Just do it like this
Just do it like this
All night

Look at me baby, on your mama's leg
Your nightmare has come alive
Little girls run, little girls scream
But the little girls just can't hide

I got no more sympathy
Crying all night don't mean that much to me
If you just don't care, you best beware
Fire keeps burning everywhere on me

Just do it like this
Just do it like this
Just do it like this
All night

Look out!

Everybody sucks, but I suck less
Maybe I'm crazy, maybe I'm the best
Some two bit mama got me by the leg
Little girl thinks she's in control... forget it

Just like this
Everybody like this
Just do
Come on baby do it
Just do it like this

Look out!
