

Just What the Doctor Ordered

Ted Nugent

I got my guitar when I was ten years old
Found a love in rock an' roll
Now I'm on the verge of a nervous breakdown
I'm gonna give my body and soul

It's so crazy
But you know that I like it
I've found a cure for my body and soul
I've got me an overdose of rock and roll

I jammed everyday
I jammed every night
I practiced till I knew all the licks
Now I'm on the verge of a nervous breakdown
I don't know the meaning of quit

It's so crazy
Yes you know, but I like it
It crushes my head, my brain is on the border
But this is what the doctor ordered
Yes, it is

I jammed everyday
I jammed every night
I practiced till I knew all the licks
Now I'm on the verge of a nervous breakdown
I don't know the meaning of quit

It's so crazy
But I like it
It crushes my head, my brain is on the border
But this is what the doctor ordered

This is what the doctor ordered
This is what the doctor ordered
