

Strangers

Ted Nugent

I can't stop this feeling I've got
The night plays tricks on my mind
I keep seeing things that are not
Maybe I'm lost in time
I'm searching for a love
That just can't be found
I keep running away

I'm a stranger
Lost in the night
Stranger

Who is the hunter and who is the prey
This is the oldest game
I'm trapped and can't get away
The night will never be tamed

Cause I'm a stranger
Lost in the night
Stranger
We're all strangers
Lost in the night
Stranger

Like a tiger hot on the trail
Like a demon right out of hell
Maybe this is just a bad dream
But I'm awake and I hear the scream

We're all strangers
Lost in the night
Strangers
We're all strangers
Lost in the night
Strangers

I can't stop this feeling I've got
The night plays tricks on my mind

Strangers
Strangers
Strangers
Strangers

We're all strangers
Strangers
We're all strangers
Strangers

We're all strangers
Lost in the night
Strangers
We're all strangers
