

Diamonds

Tedashii

Yeah, osage

Pressure, lost man got another lecture
Yesterday no breakfast
Bills racking up on the dresser
Dressers, no answers
How long when it gone can you measure?
Answers
Oh when you down, when it tries your soul
Don't fall, I'm just tryna bring relief to the brickman
I know my calling through the storm is a war
Don't pitch control, don't drown I tell 'em
So I'm tryin' to move past
Move past like the past
Do it fast like I'm last
Why care, why care?

'Cause I gotta lot of things on my mind
Got a lot of pain in my heart
Got a lot of trouble in my soul
Devil tryna tear me apart end sin
Like I got the whole world on my shoulders
Puttin' a restraint on my back
Got a lot of pressure on my body
But diamonds made just like that, yeah

That's how diamonds are made
Pressure, pressure
That's how diamonds are made
Diamonds made just like that
That's how diamonds are made
Pressure, pressure
Diamonds made just like that
Everyday is left potential
Hit you with the heavy metal
Never fold, I'ma kick through
Pressure, pressure

In this
Now we gotta talk to offend it
Listen, tension
Losing weight better by inches
Fitness
This is tryna take the shot don't listen
This senseless try the cash with the cash, Memphis
Dangers expensive
I'm just tryna not to break
When I break I mean wait
I can't wait like Nina Brady
Use a drink as my escape
Tryna to kick it like a Rockette
I'ma rock it like I'm Hardin
Rock of music do it directly
I take cause in bug eyed fate
I got blessings on the way
I can see a better day
He pulls strings I'm harlot

This is why I take some time
I'ma do it like there's not another
Come and love from the bottom like I'm out the gutter
Livin' in a elevator got me pressin' buttons
Can you help me with the pressure?

'Cause I got a lot of things on my mind
Got a lot of pain in my heart
Got a lot of trouble in my soul
Devil tryna tear me apart end sin
Like I got the whole world on my shoulders
Puttin' a restraint on my back
Got a lot of pressure on my body
But diamonds made just like that

Yeah
That's how diamonds are made
Pressure, pressure
Diamonds made just like that
Never fold
That's how diamonds are made
Pressure, pressure
Diamonds made just like that
Never fold
Everyday is left potential
Hit you with the heavy metal
Never fold, I'ma kick through
Pressure
Everyday is left potential
Hit you with the heavy metal
Never fold, I'ma stand through
Pressure
Never fold, never fold
Let it fold
Let it go, let it go
Let it fold, let it fold
