Tedashii

I just wanna see you smile  
(Just wanna see you smile)  
Just wanna see you smile, yeah  
(Just wanna see you smile)  
You know you deserve to smile  
(You deserve to smile)  
So know that I'm still gon' smile, yeah  
I just wanna see you win  
Wanna see you on the pros, yeah  
It don't matter where you been (been)  
Only where you tryna go, yeah  
So let 'em see you smile, hey  
I love when I see you smile, yeah

I just wanna see you smile (Yo)  
You've been through what you've been through  
No dream, you can't pretend to  
Come through, ain't no issue  
(Ain't no issue)  
Listen, you light the room up  
At the night like the moon up  
Spread your life like a rumor  
You the star, ain't nothing lunar  
Life is hard, but it's getting better  
We all harmed, but the scars, they not here forever  
Looking back, moving forward  
What you went through can't ignore it  
Hard to laugh, so you force it  
What you feeling, it ain't over  
Yeah, you need to smile, yeah, you need to smile  
I love the way you smile when I see you smile  
You need a W, let's hit the W  
Escape away, so that nothing can trouble you  
Two sides on the corners in front of you  
Let me show love for you, yeah

I just wanna see you smile  
(Just wanna see you smile)  
Just wanna see you smile, yeah  
(Just wanna see you smile)  
You know you deserve to smile  
(You deserve to smile)  
So know that I'm still gon' smile, yeah  
I just wanna see you win  
Wanna see you on the pros, yeah  
It don't matter where you been (been)  
Only where you tryna go, yeah  
So let 'em see you smile, hey  
I love when I see you smile, yeah

Yeah, yeah lemme make it better, let me help you out (Help you out)  
Offer you the care when they left you out (They left you out)  
I can tell you more that you need to know  
Gotta find the smile when your feeling low  
Yeah, yeah, You know that we know  
You know you need more (Woo)  
I just don't get it, some days I might miss it, take two like a free-

throw (swish)  
Feel like I'm done with the old path  
God got it covered the whole time (Yeah)  
Yeah, I cannot go back  
Yeah, you know it's facts  
Yeah, you need to smile, yeah you need to smile  
I love the way you smile when I see you smile  
You need a win, so just tell me when  
Just hit me up and you know that I'm coming thru  
Two sides to the corners in front of you  
Lemme show love to you

I just wanna see you smile  
(Just wanna see you smile)  
Just wanna see you smile, yeah  
(Just wanna see you smile)  
You know you deserve to smile  
(You deserve to smile)  
So know that I'm still gon' smile, yeah  
I just wanna see you win  
Wanna see you on the pros, yeah  
It don't matter where you been (been)  
Only where you tryna go, yeah  
So let 'em see you smile, hey  
I love when I see you smile, yeah

Love when I see you smile  
Love when I see you smile  
Hate when I see you down  
Love when I see you smile  
Love when I see you smile  
Love when I see you smile  
Never wanna see you down  
Love when I see you smile
