

Splash II

Tedashii

Yeah
Round 2
Ayy, lemme talk
Let go

Young Slick, I slide down, you can tell that they hatin'
I gave 'em five, no slime, told my ex she too late
If you looking for that splash, this how you make it
Moving in faith, stay on my face
Runnin' this thing, move out the way, yeah, mmh
It's a difference in flows, intervals
Pick up the ball, pivotal
Dropping the bomb, critical
Making it splash, literal
The bigger the crop, the bigger the opp
The enemy sending me shots
I'm feeling like this finna pop

Loose
I ain't with the fakin', that's a thing I can't do
I don't do communion no more if it's grape juice
You prone to have a problem if you testin' God
That come from my experience, not just a job
Missin' the mark but I'm through with it
Ran from the law like a fugitive (What?)
Life can get old, I ain't new to this
Walkin' by faith but I Uber'd it
Give me five stars
I been through some battles, you see my scars (See my scars)
Got an X on my back but it's just a cross (Just a cross)
I can't brag 'cause He did it
With no glasses, seein' different
Ain't no actor, scene's different
Goin' down like it's payday
Out here yellin' mayday (Uh)
Crash and burn, live and learn
Sometimes it's screwed up like these grey tapes

Ooh, I'm too lit, watch me hop up out the grave (Hop up out it)
Yeah, they too scared to swim while we making waves (Yeah, yeah, yeah), ooh
I just made a splash, I just made a splash, hey
I just made a splash, I just made a splash
Necessary, everything ain't necessary (Everything ain't...)
Legendary, my clique on that legendary (Yeah, yeah, yeah), yeah
I just made a splash, I just made a splash, ooh
Watch me make a splash, I can make a splash
Splash, splash, splash, splash

Hit 'em with the splash
Just a bit, just a dab
I know that they mad
But now I'm in my bag, yeah
I know what they want
I know what they need
I don't have no jack
I live free to ring, ayy
I just talk to God

I just let 'em be
I just bring the wave
Water gettin' deep, yeah
Lotus with the splash, call from P, gotta split the sea
God just sent the play, so we straight, I can't do no snakes, no
Now they got me goin' Django
Peep the glow, 'bout to blow like C4

Ooh, I'm too lit, watch me hop up out the grave (Hop up out it)
Yeah, they too scared to swim while we making waves (Yeah, yeah, yeah), ooh
I just made a splash, I just made a splash, hey
I just made a splash, I just made a splash

Stevie Nash, used to run and dash with the pass, oh
If I crash, move it fast, we not comin' last, no
Look at me keepin' the grass low
Never believe in the cash flow
I'm in the field in Houston, me and Tedashii, call us the Astros, ayy
Spent some nights up in that batting cage
And I ain't goin' back another page, no way
Tell 'em we not afraid
Makin' a splash, Minute Maid, yeah
Get you a trophy, we live forever this the golden age
Ayy, splash, yeah, Phew

Ooh, I'm too lit, watch me hop up out the grave (Hop up out it)
Yeah, they too scared to swim while we making waves (Yeah, yeah, yeah), ooh
I just made a splash, I just made a splash, hey
I just made a splash, I just made a splash
Necessary, everything ain't necessary (Everything ain't...)
Legendary, my clique on that legendary (Yeah, yeah, yeah), yeah
I just made a splash, I just made a splash, ooh
Watch me make a splash, I can make a splash
