

Life Goes On

Teddy Geiger

Land where you fall
Land where you are free
Stones for the cemetery

And I know what you think
You think I don't know you
That one of us makes two

Life goes on and I can't help but try
Can't send it back
Those summer nights

Crushed out at fourteen
We was young
Lost that on the sea of seventeen
A life letting go
A life that we once knew

Damned to forget my heart

Life goes on and I can't help but try
Can't send it back
Those summer nights
Life goes on and I keep changing
More and more the same for life
And death
Thank god

Life goes on and on
Round and round
Life goes on and on
Round and round
Life goes on and on
Round and round
Life goes on and on
Round and round
