

## Sit and Wonder

Teddy Geiger

Pick up the pace, get with the dogs, what are you doing!?  
Sit and wonder why you're running away  
We all take our time running off with someone new  
Sit and wonder why you're running away  
Friends like a wedge cutting wood, as a glacier cuts the crust  
when I change up the plans with you  
Oh well...

Do what you wanna  
She'll do whatever, I began to see it in her, I had to watch her do it  
In the summer let the sun burn it away  
Sit and wonder why you're running away

I saw a million reactions in space  
Sit and wonder why you're running away  
And I diverged the wash as I commenced the scene, like a visage  
assembled, like the worst of things  
I had to live a life running away from me, I had to watch it go  
, hey watch it!

Then I gave my life to the night  
And I wonder why you're running away  
I never really forgot about it  
Sit and wonder why you're running away

She went locking it up, the information lost at sea, in the center of the ring with everything she need  
I light us a candle in the spirit of love and light
