

Sweeter Than The Truth

Teddy Geiger

I broke down and let them save you, oh
And the car pulled out the driveway
Wave goodbye it's been so long
You took that medicine they gave ya, oh
Are you feeling any better
Cause it's looking like you aren't
Since they took you away

I've been thinking and I've got a lot to say

I brought a picture of us
Do you remember when we used to get together
Hold hands and say forever baby
How could we get back to that place
I said I didn't but I really missed ya
All the things in my life
Every one of them reminds me of you
We'll never get back
These memories and photographs
Maybe it's just better I remember these pictures
So much sweeter than the truth

Without you anger's lost its flavor, oh
No more yelling, no more fighting
So I leave the TV on
With no pay per view or cable
Sings as sweetly as my baby
Oh I miss it every day
Since they took you away

I've been waiting just to hear you say my name

I brought a picture of us
Do you remember when we used to get together
Hold hands and say forever baby
How could we get back to that place
I said I didn't but I really missed ya
All the things in my life
Every one of them reminds me of you
We'll never get back
These memories and photographs
Maybe it's just better I remember these pictures
So much sweeter than the truth

So many nights
So many days awake
And I thought life without you would be easy living
I brought a picture of us
Do you remember when we used to get together
Hold hands and say forever baby
How could we get back to that place, oh
I said I didn't but I really missed ya
All the things in my life
Every one of them reminds me of you
We'll never get back
These memories and photographs
Maybe it's just better I remember these pictures

So much sweeter than the truth
