

## Summertime

Teenage Bottlerocket

Baby I'm getting sick of all the cold and snow  
I wish there was a warmer place that we could go  
Maybe in California hanging on the beach  
Or over in some desert in the Middle East

Even though that would be great  
I think we're still gonna have to wait  
For summertime, when it's hot as Mexico  
We'll drive around, roll the windows down  
Turn up the stereo, yeah it's summertime

Winter ain't the weather I'm wantin'  
I wanna be where there's warm and sun  
It's summertime
