

# Your Love Is The Place Where I Come From

Teenage Fanclub

Your sadness don't lie  
Your feelings can't hide  
You always know why  
But your reasons are sly  
You never deny  
What you feel inside  
I  
I disappear when you're not here  
In my life

I can't slip away when I see your face  
I lose my confusion  
Your love is the place where I come from  
When I'm on my own I'm lost in space  
My freedoms a delusion  
Your love is the place where I come from

My sadness don't lie  
My feelings can't hide  
I just can't deny  
What I feel inside
