Dark Come Soon

Tegan and Sara

Dark, you can't come soon enough for me Saved, from one more day of misery Everything I love Get back for me now Everyone I love I need you now Don't forget a million miles for me Safe and another day passed by me Everything I love Get back for me now Everyone I love I need you now So I conned, I lied I lied to me too So I conned, I lied I lied to me too Hold out for the ones you know will love you Hide out from the ones you know will love you You, you too Go to the edge and back Slow To make my move, I'm almost there Everything I say I say to me first Everything I do I do to me first So what, I lied I'd lie to me too So what, I lied I'd lie to me too Hold out for the ones you know will love you Hide out from the ones you know will love you You, you too Dark you can't come soon enough for me
