

Oh! The Saviour

Temples

Mister sounds you it's like a mountain
Only goes where the rhythm takes in
Only goes where the sun don't shine
On his own to the paradise

Mister sounds first like a mountain
Like a volcano erupting
On a boat on a bottom layer
Standing down like a whiten color
Standing down like a weekend mater
Leaving life in the speed of light

Mister sounds you it's like a mountain
Only goes where the rhythm takes in
Only goes where the sun don't shine
On his own to the paradise

Mister sounds first like a mountain
Like a volcano erupting
On a boat on a bottom layer
Standing down like a whiten color
Standing down like a weekend mater
Leaving life in the speed of light

All to save you, to save you, to save you
Old behavior, behavior, behavior
