

## Girls Lie Too

Terri Clark

So she can't go out tonight again  
Her sister's sick, she's gotta babysit  
Yeah that sounds like a pretty good excuse  
Now you didn't hear any of this from me  
But things aren't always what they seem  
Brace yourself, this may come as a shock to you  
Girls lie too

We don't care how much money you make  
What you drive or what you weigh  
Size don't matter anyway  
Girls lie too  
Don't think you're the only ones  
Who bend it, break it, stretch it some  
We learned from you  
Girls lie too

We can't wait to hear how many fish you caught  
Love to see dead deer heads on the wall  
And we really don't mind if you dip or chew  
Other guys never cross our mind  
We don't wonder what it might be like  
How could it be any better than it is with you  
Girls lie too

We don't care how much money you make  
What you drive or what you weigh  
Size don't matter anyway  
Girls lie too  
Don't think you're the only ones  
Who bend it, break it, stretch it some  
We learned from you  
Girls lie too

Yeah girls lie too  
We always forgive and forget  
The cards and flowers you never sent  
Will never be brought up again  
Girls lie too  
Old grey sweat pants turn us on  
We like your friends and we love your mom  
And that's the truth  
Girls lie too

Yeah, that's the truth  
Girls lie too

No, we don't care how much hair you have  
Yeah, that looks good, comb it over like that
