

Barbarella

The 69 Eyes

Times are getting harder everyday
stars seem to be so far away
but she's waitin' for me
I'm sure she does

She's Ba-Barbarella Barbarella
My lazer-shootin' planet queen

Everytime I see this movie
I feel so cosmic 'n' groovy
When she's starin' at me
From my own TV

She's Ba-Barbarella Barbarella
My lazer-shootin' planet queen

She's the sleaze goddess travelling through the space
A good body a beautiful face
The electric universe blows my mind
A trip in her shin there's no other kind
