

## Not That Bad

The 88

Get your hand off my knee  
All your friends, they are liars  
They call for ashes to ashes  
Dust into dust  
Tell me honey, who to trust?

Your prediction's a lie  
I could tell by your throat  
You call for mommy and daddy  
Saving your neck  
Tell me, what should I expect?  
Should I expect?

You said you're loving everything that you have  
It's not that bad, it's not that bad  
You say you're giving everything that you have  
But you never do  
And honey, I know you

Wipe that smile off your face  
I saw you in the mirror  
You tell me over and over  
Saying you're fine  
Honey, where do I draw the line  
Draw the line

You said you're loving everything that you have  
It's not that bad, it's not that bad  
You say you're giving everything that you have  
But you never do  
And honey, I know you  
Hey!

Oh no, it's not what you're thinking  
It's not who you are  
Tell me, how did I go too far?  
Go too far?

You said you're loving everything that you have  
It's not that bad, it's not that bad  
You say you're giving everything that you have  
It's not that bad, it's not that bad

Quiet! Quiet!  
Hey! Hey! Yeah!

You said you're loving everything that you have  
But you never do  
And honey, I know you
