

Shadows

The Afters

I am breaking
Through the concrete
Like an inmate
To the light of day
I'll take my chances
On the outside
With a dark side
That I can't escape

If you know me you know I got nothing to lose
It's do or die but this time I'm gonna do
If you know me you know I got nothing to lose

Wake up the statues
Breathe out the dust
Shock of a heartbeat
Rush of the blood
Breaking in to my skin
Feel the burning again
I can't escape it
It's time to
Rise up from the shadows
Rise up from the shadows

All the circuits
Reigniting
Like a lighter
In a stadium
Echoes of angels
In cathedrals
Calling my name
Like a prodigal

If you know me you know I got nothing to lose
It's do or die but this time I'm gonna do
If you know me you know I got nothing to lose

Wake up the statues
Breathe out the dust

Shock of a heartbeat
Rush of the blood
Breaking in to my skin
Feel the burning again
I can't escape it
It's time to
Rise up from the shadows
Rise up from the shadows
Rise up from the shadows

Awaken my soul
Awaken my senses
This flesh and bones
Rise up from the shadows
Awaken my soul
Awaken my senses
This flesh and bones

Rise up from the shadows
Rise up from the shadows
Rise up from the shadows

Wake up the statues
Breathe out the dust
Shock of a heartbeat
Rush of the blood
Breaking in to my skin
Feel the burning again
I can't escape it
It's time to
Rise up from the shadows

Wake up the statues
Breathe out the dust
Shock of a heartbeat
Rush of the blood
Breaking in to my skin
Feel the burning again
I can't escape it
It's time to
Rise up from the shadows
