A Dream Within a Dream

The Alan Parsons Project

[Instrumental]

"For my own part, I have never had a thought which I could not set down

in words with even more distinctness than that with which I conceived it.

There is, however, a class of fancies of exquisite delicacy whi ch are not

thoughts, and to which as yet I have found it absolutely imposs ible to

adapt to language. These fancies arise in the soul, alas how r arely.

Only at epochs of most intense tranquillity, when the bodily an d mental

health are in perfection. And at those weird points of time, \boldsymbol{w} here the

confines of the waking world blend with the world of dreams. A nd so $\ensuremath{\mathsf{I}}$

captured this fancy, where all that we see, or seem, is but a $\ensuremath{\text{d}}$ ream within

a dream."
