There Is A Wind

The Album Leaf

Running so far ahead Just to get back to the end There is something in our way There is something I can't say

There's a wind behind everyone
It takes us through our lives
I wish I could have stayed
But this wind takes me away, away, away

One day we began To fly again And now we start To fly and then

Running so far ahead

Just to get back to the end

There is something in our way

There is something we can't say

There's a wind behind everyone
It takes us through our lives
I wish we could have stayed
But this wind takes us away, away, away

Oh, where do we go in these days? Oh, where will we land?
