Girl of my Dreams

The All-american Rejects

Beautiful you are Yeah, you I choose I look to the stars For a girl like you And what I lost I have found And, yeah, we'll wait around For the girl that is you Yeah

Maybe a chance I could have with her We shared a glance At least I thought we were And what I have lost I have found And, yeah, we'll wait around For the girl that is you Yeah

You make my heart skip, but how? I'm scared What do I do now

I wanna go out I'm stuck here all alone I gotta get out I'm here all alone And I'm thinking of you You're on my mind I try to talk to you But you never give me the time of day

I dream of us And wake up alone We'll take the bus But I'm still at home And what I've done I'll do And then it's just me and you And then you leave in May

You leave me hard and lonely You are my one and only

I wanna go out I'm stuck here all alone I gotta get out I'm here all alone And I'm thinking of you You're on my mind I try to talk to you But you never give me the time of day

Do - do do do - do do do - do do do do (2x)

You are Such and beautiful thing And all goods things must come to an end You are

Such and beautiful thing And all goods things must come to an end It's the end - It's the end - It's the end for you It's the end - It's the end - It's the end for you It's the end - It's the end - It's the end for you It's the end - It's the end I wanna go out I'm stuck here all alone I gotta get out I'm here all alone And I'm thinking of you You're on my mind I try to talk to you But you never never never never I wanna go out I'm stuck here all alone I gotta get out I'm here all alone And I'm thinking of you You're on my mind I try to talk to you But you never give me the time of day Do - do do do - do do do - do do do do (9x)
