

# Watch the Red

## The Angels

'The record.. watch the red, the record.. watch the red, watch the red,  
Anybody see it?'

Central Station, coming train  
Sit on the sidewalk, just a game  
Watch the shelter what's the deal?  
Twenty gets to forty, think of steel  
Play god, play hard, soon as you can  
Asking questions, punch that code  
Somebody tell me what I need to know?

Gotta save it on the rent to get the gold  
Watch what you do, out on the street you're walking alone  
Watch what you do, how could you lose you'll never know?  
Executioner sullen, all the tears are gone  
Fold a hand, give me a chance  
Listen to what she said, watch the red  
Watch the red,  
Watch the red,  
Watch the red.

Old hand, cold shark, put your money down  
Due in the backyard and the game is down  
Do the burn, gotta learn, gotta see the call  
Watch the lynch man fall apart alone

Watch what you do, out on the street you're walking alone  
Watch what you do, how could you lose you'll never know?  
Executioner sullen, all the tears are gone  
Fold a hand, give me a chance  
Listen to what she said, watch the red  
Watch the red,  
Watch the red,  
Watch the red.

Watch the red.

'Watch the red, watch the red, watch the red'  
Come back here, hey come back here, hey lady?  
Where's my money?  
Where's the red?

Executioner sullen, all the tears are gone  
Fold a hand, give me a chance  
Listen to what she said, watch the red  
Watch the red,  
Watchin' the red,  
Watch the red.
