

Baby Kill Me

The Answer

Oh baby kill me
I really wanna go now
Oh baby kill me
Take me where I wanna go now, go now

When will you understand that you don't lead a problem life
If you love me baby you will slit my sorry throat tonight

Oh baby kill me
I'll pay you when I see you
Oh baby kill me
You never been there when I need you, I need you
Oh baby kill me
My soul can not be repaired
Oh baby kill me
You see I'm sick of breathin' this air, this air

When will you understand that you don't lead a problem life
If you love me baby you will slit my sorry throat tonight

Oh baby kill me
I got nothing left to prove now
Oh baby kill me
I promise you that you can choose how, choose how

And when I'm sleepin' babe you know where I'll be
And you gotta do what you gotta do
And now I'm not alone you tread so lightly
This is what I got cos' I loved you
Because I loved you

Oh baby kill me, yeah
Baby kill me, please
Baby kill me, kill me, why don't you do it
Baby kill me
Go ahead, do it
Kill me
