

## Concrete

## The Answer

Getting hungry for your taste  
Can't let that feeling go to waste  
It's hard to practice what I preach  
When you are out of reach

You crack me open wide  
Why don't you step inside  
Within my darkened soul  
Your spotlight takes control

When I can't find the touch that I need  
When my heart gets a start and it bleeds  
Hit the switch, turn me on, let me see  
I got to have it... I got to have it concrete

It's your love that I so crave  
And I will take it to my grave  
You fill the world that I reside  
With what I can't describe

And when you're not around  
I'd like to show you how  
Until that day I'll play the fool  
So help me, I'm possessed by you

When I can't find the touch that I need  
When my heart gets a start and it bleeds  
Hit the switch, turn me on, let me see  
I got to have it... I got to have it concrete

When they say that I can't have it all (I got to have it)  
I got the key but can't open the door (I got to have it)  
When there's nothing in the world that I want more  
I got to have it for sure  
I got to have it for sure, yeah

When they say that I can't have it all  
I got the key but can't open the door  
When there's nothing in the world that I want more  
I got to have it, I got to have it for sure

When I can't find the touch that I need (I got to have it)  
When my heart gets a start and it bleeds (I got to have it)  
Hit the switch, baby, tell me what you see (I got to have it)  
I got to have it, I got to have it concrete  
I got to have it concrete  
I got to have it concrete  
I got to have it concrete  
Yeah
