

Leave with Nothin'

The Answer

I'm turning my back on wasted ground
There's a hunger at my door
I got better things to do than make you proud and I know that I
want more
I can see it in your eyes, there's a lot you need to know
It should come as no surprise, there's a distance I have left t
o go

No I don't mind, if I leave with nothing
No I don't mind
Got my back against the wall, but I was never born to fall
And if I leave with nothing, I don't mind at all

No I never thought I'd find a life like this, it's a circus eve
ryday
So cover me in my electric bliss, is there any other way?
Can I hear you cry
You're never gonna die
So tell the truth, what you see, is nothing you think I'm born
to be
It's isn't much, the price I pay, maybe you'll understand some
day

No I don't mind, if I leave withn nothing
No I don't mind
There's a whistle gonna blow, telling me all I need to know
And if I leave with nothing, I don't mind at all
I don't mind at all
Listen

How many people pass the test, how can they know what
I possess in ray heart
Give them an inch, they'll take the lot, tell you they worked f
or what they got
Feed you another pack lies, think they've the right to criticiz
e my life...style

No I don't mind, if I leave with nothing
No I don't mind
Gonna run before I crawl, cause I was never born to fall
And if I leave with nothing, I don't mind at all
Aghh....I don't mind at all
Aghh....No I really don't mind, do you?
