I'm turning my back on wasted ground
There's a hunger at my door
I got better things to do than make you proud and I know that I
 want more
I can see it in your eyes, there's a lot you need to know
It should come as no surprise, there's a distance I have left t
o go

No I don't mind, if I leave with nothing
No I don't mind
Got my back against the wall, but I was never born to fall
And if I leave with nothing, I don't mind at all

No I never thought I'd find a life like this, it's a circus eve ryday

So cover me in my electric bliss, is there any other way? Can I hear you cry

You're never gonna die

So tell the truth, what you see, is nothing you think I'm born to be

It's isn't much, the price I pay, maybe you'll understand some day

No I don't mind, if I leave with nothing
No I don't mind
There's a whistle gonna blow, telling me all I need to know
And if I leave with nothing, I don't mind at all
I don't mind at all
Listen

How many people pass the test, how can they know what I possess in ray heart Give them an inch, they'll take the lot, tell you they worked f or what they got

Feed you another pack lies, think they've the right to criticiz e my life...style

No I don't mind, if I leave with nothing
No I don't mind
Gonna run before I crawl, cause I was never born to fall
And if I leave with nothing, I don't mind at all
Aghh...I don't mind at all
Aghh...No I really don't mind, do you?
