

Long Live The Renegades

The Answer

You fire me up
You fire me all the way
I feel it in my bloodstream baby
The power is here to stay

Long live the renegades in a
A fast ticket world
You can't stop the renegades
That great big heart of yours
Can never die

You stepped up one November day
When I was almost down
A free fall in disguise
I was losing ground

Oh but you know
I said you know what you're doing to me
I can light your way
Who's to say that you can't be free

Oh oh oh oh
Oh oh oh ohhhhhh

Long live the renegades in a
A fast ticket world
You can't stop the renegades
That great big heart of yours
Can never die

Long live the renegades in a
A fast ticket world
You can't stop the renegades
No matter what you heard, you see
It's all just a game we play
The king won't decide
And no one wants to fade away
That great big heart of yours
That great big heart of yours
That great big heart of yours
Can never die

Long live the renegades
Long live the renegades
Long live the renegades
Long live the renegades
