

Nowhere Freeway

The Answer

I met a woman walking on the highway
She said she don't why but she knows she can't stay
After digging deeper, I struck pure gold
She told me time is mine and the world is my own

I asked her where are we going
She said we've arrived without knowing

I got nowhere I can turn
I take my chances I don't care if I burn
On that freeway I will spend my days
I take my chances I may never return
Come back again

And what's the world collapse on by the both sides
They're gonna free us all we were born to collide
But the birds, the clouds and the blue blue sky
We'll follow down the path in our minds, yeah

I asked her where are we going
She said we go round without knowing

I got nowhere where I can turn
I take my chances I don't care if I burn
On that freeway I will spend my days
I take my chances I may never return

I got nowhere

I got nowhere where I can turn
I take my chances I don't care if I burn
On that freeway I will spend my days
I take my chances I may never return

I got nowhere where I can turn
I take my chances I don't care if I burn
On that freeway I will spend my days
I take my chances we may never return
No, we may never return (x2)
Come back again
