

Some Unity

The Answer

Well what I want from you is some unity
I'm gonna break on through so that I can see
What I want to see, what I must enjoy
Won't you sing it now, sing it girls and boys

I want some unity yeah
I need some unity yeah
I want some unity yeah
I need some unity yeah

I'm gonna find a place on the fringe of life
An upturned world where I'll cut the knife
Then I'll walk on by because I live to roam
Then I'll get on down because I'm coming home

I want some unity yeah
I need some unity yeah
I want some unity yeah
I need some unity yeah

Come down talk to you
Walk by and help you through
Stand up and talk to me
Who can you be
Find one there's always two
Two ways to look at you
You'll see what you will get
I've got no colour yet

I want some unity yeah
I need some unity yeah
I want some unity yeah
I need some unity yeah
